

# MCB Camp Pendleton Environmental Standard Operating Procedure

10 November 2020

## Waste Tire Storage

Used tires that are awaiting disposal are managed as a solid waste on Marine Corps Base, Camp Pendleton. Within California, the California Department of Resource Recycling and Recovery (CalRecycle) regulates the storage of waste tires.

### General Storage Requirements

1. Do not collect more than 70 tires at a storage location.
2. Store waste tires in a manner which prevents the breeding and harborage of mosquitoes, rodents, and other vectors by any of the following means:
  - a. Cover with impermeable barriers, other than soil, to prevent entry or accumulation of precipitation; or
  - b. Use treatments or methods to prevent or eliminate vector breeding as necessary.

### Outdoor Storage

1. Store waste tires in individual piles that do not exceed 5,000 square feet of contiguous area. Pile width shall not exceed 50 feet. A pile shall not exceed 50,000 cubic feet in volume or 10 feet in height.
2. Store waste tire piles no closer than 10 feet and no further than 50 feet from buildings.

### Indoor Storage

1. Do not allow the storage of waste tires to extend more than 25 feet from a wall.
2. Do not allow waste tire piles to exceed 50 feet in width in any one direction.
3. Do not store waste tires in exits or enclosures for stairways or ramps, or in boiler rooms, mechanical rooms, or electrical equipment rooms.
4. Do not store waste tires within two feet or less from the ceiling.

### Disposal

1. Contact the Defense Logistics Agency at the below website for disposal:
