

FIRE PREVENTION & SAFETY

FIRE SAFETY TIPS FOR THE WORKPLACE:

1. Ensure you have an assigned Fire Warden
2. Check for damaged or overloaded outlets, cords, & cables
3. Keep electrical equipment clear from things that can catch fire
4. Never leave portable heaters unattended
5. Keep workspaces well ventilated
6. Conduct fire drills to plan and practice escape routes
7. Keep exits free and clear of debris / obstacles
8. Inspect and maintain your fire extinguishers
