Don't Let Safety

Slip at Work!

Slips / Trips / Falls

Take steps to prevent

- Wear proper footwear
- Fix loose carpet/mats/floor tile
- Make sure lighting is adequate
- Mark slopes & elevation change
- Secure cords and cables

Keep it clean & clear

- Keep floors clean & dry
- Wipe up spills quickly
- Keep aisles & walkways clear of clutter and obstacles

Watch out

- Watch for holes, cracks, or uneven surfaces
- Take extra care on steps, painted wood or concrete surfaces
- Uncovered cords, hoses, cables, & wire
- Be aware of icy surfaces

Statistics

Slips, trips, and falls **ranked third** among the top employer-related workplace injuries and are the **primary cause** of lost days from work. According to the Bureau of Labor Statistics (BLS), slips, trips, and falls led to **450,540 work injuries** and **865 work-related deaths**.
