Service Members and families of Marine Corps Installations West-Marine Corps Base, Camp Pendleton:

Our children must be afforded the highest quality education allowing them to compete and thrive. We can ensure our children have the necessary tools for success by ensuring our local public school systems receive appropriate funding from sources such as the Federal Impact Aid Program. Federal Impact Aid is designed to assist local school districts with a substantial federal government presence. The program is intended to directly compensate local school districts for revenue lost due to the presence of federal property.

If your child attends school in a qualifying district, they will bring home a Federal Impact Aid Survey Card at the beginning of this school year. As parents, you can help our schools by completing the survey card and returning it to your child's school. By investing a few minutes of your time to complete and return this card, you allow your child's school district to qualify for Federal Impact Aid funding. Schools often do not receive their full share of funding under this program due to non-return of many cards.

Your involvement is the best way to ensure our military-impacted public schools receive the appropriate amount of federal aid dollars to meet the educational needs of our students.

Working together, we can ensure our children are provided the highest quality education available to them.

Sincerely,

A handwritten signature in black ink, appearing to read "N. I. BROWN", is positioned below the word "Sincerely,".

N. I. BROWN
Brigadier General, U.S. Marine Corps
Commanding General
